

# Talk of the Town

## cultural traditions

Different towns and areas in the same country can be very different from each other. Over the years, they develop their own language and their own cultural traditions. Tell everyone about your town and find out what other places are like.

Do people in your town have any special characteristics? What are they like?

---

Is there a local dialect or accent? Give some examples of words that are special to your area?

---

Does your town have any special festivals or events? Write as much about them as you can. When and where do they take place? What happens? Who takes part? Do you enjoy them?

---

---

---

Does your town or region have any traditional music or dance? What are they like? Do you know their history?

---

Anything else?

---
