

Talk of the Town

All about my town

What kind of place is your town? Give everyone some general information to start with.

What's it called? Do you know where the name comes from?

What part of the country is it in?

Is it big or small? Or maybe it's a village. Are there any big or famous places nearby?

How many people live there? (the population)

What's the climate like? What's the hottest & coldest it gets? Do you get snow? Typhoons or earthquakes?

Does it have an interesting history?

Anything else?
