

# Welcome to My School

## The classrooms

Share information about the kind of classrooms you spend your days in. Are they similar or different to those in other schools?

Write down everything you can see in your own classroom.

---

---

What's on the walls? Whose work is it?

---

What style of desks and chairs do you have? What are they made of?  
How are they arranged?

---

Do you have heating and air conditioning in your classroom?

---

Do you have any plants or animals in your classroom?

---

Do you always use the same classroom?

---

Take photographs of all the things in your classroom

and post them on the talkboard!
