

# My Family

## Beginnings

This theme is 'Homes and Houses' and it has two talkboards 'My Family' and 'My House'. This is the 'My Family' talkboard, where you can write about yourself and the people who are important to you - family, pets, friends and so on. If your family says it's OK, why not put photos up too.

In Japan when you change school or join a new class, you have to stand at the front of the class and introduce yourself. If you had to do this at your school, what would you say? Write about yourself on the talkboard and see if there's anyone who has the same interests as you.
